President Warns Against Frivolous View of Citizens' Relations to Both Church and State; Points Out Dangers in Moral Laxity and Religious Intolerance

WASHINGTON, March 25. — The church can render no higher service at this time than to put forth its utmost influence in behalf of "frank and willing obedience to the law of the land" President Harding declared Friday in an address before the Bible class of Calvary Baptist church. No newspaper correspondents were admitted to the church but the president's address was made public from the White House.

to the church but the president's address was made public from the White House.

Without giving too much weight to alarmist expressions, the president said "we must nevertheless recognized that there is a very apparent tendency to a lighter and more frivolous view of the citizens' relations to both the state and the church. If the people who are known as leaders, he added, become known for their defiance of some law, they need not be astonished if their example is followed by others.

At another point Mr. Harding discussed the loose talk nowadays about the cause of the spiritual demoralization of the community" and declared that it could not be laid entirely to the war but to a tendency before that period toward "a certain moral laxity, a shifting of standards, a weakening of the sterner fibres."

DISREGARD FOR LAW Take for example the matter of regard for the law. Without giving too much weight to alarmist expressions, we must nevertheless recognize that there is a very apparent tendency to a lighter and a more frivolous view of the citizens' relations to both the state and the church. We both the state and the church. We can hardly hope for a restoration of the old ideals in religion and in moral conduct so long as this tendency to disrogard for the law shall continue. It is absolutely essential to the maintenance of a secure society and to the attainment of a proper moral plane, that the laws should be regarded as sacred and supreme. It should have at its back, and enlisted in its support, every element of the community that realizes the desirability of sound, secure and stable institutions. that realizes the desirability of sound, secure and stable institutions. Disregard of one statute inevitably must breed a lack of respect for the law in general. This tendency is obvious, and ought to give the deepest concern to people who have seen, in this world, the fearful results that may flow from the breakdown of respect for the social fundamentals.

A Desirable Home

This house is laid out in a compact manner. There is a long, wide porch in front. The large central hall, with its open staircase and bay window, and a seat on the landing will assist greatly the interior decoration. The dining room, hall and parlor can be practically thrown into one. Both the parlor and library have fireplaces. The second story has four large bedrooms with closets and bathroom. A store room is a convenient feature opening from the hall. All rooms are well-lighted and ventilated.
